# QUESTION:

Does the envelope money system to pay your bills actually work?

### **ANSWER:**

The envelope system is a budgeting way to pay your bills monthly. Each time you are paid, you would withdraw a certain amount of cash to place in your envelope and label the envelope for the bill you are paying. By the end of the month, you will have saved enough money to pay each bill.

This is a great way to pay bills but it is not for everyone. You have to be financially disciplined to make this work. If you don't believe that you will not touch the funds in the envelopes, please consider looking into other options for budgeting. You could look up the <u>Pay Yourself First or 50/30/20 budgeting plan</u>. Whatever you choose, asking for help is always a good way to start. Contact us for a free financial counseling session.
